WORK EXPERIENCE

Performance Media | 05/2026 - 10/2026

Sr. Full Stack Developer | Barcelona, Spain (remote)

- Architected and deployed the full cloud infrastructure for BotPass (botpass.io), hosting the web app, API and supporting services.
- Developed the entire BotPass application, web app and REST API, using an AI-first workflow with AI as the primary development tool from day one.
- Developed and shipped the BotPass WordPress plugin (PHP), connecting WordPress sites to the BotPass platform.

Bank COMAFI | 01/2024 - 03/2026

Full Stack Developer & Multi-Cloud Developer

- Led migration of accounting and reconciliation systems from desktop software to cloud applications on AWS with Java microservices.
- Built REST APIs and serverless functions in TypeScript (Node.js, AWS Lambda, Prisma ORM) on PostgreSQL (RDS).
- Secured services with Azure AD, OAuth2 and JWT bearer tokens.
- Designed CI/CD pipelines with GitLab CI, Docker and ECS, provisioned with CloudFormation and IAM policies.
- Automated scheduled data operations with AWS S3, Control-M and Lambda triggers; delivered modular CRUDs with automatic data import/export.

Bank of Galicia | 02/2021 - 12/2023

Full Stack Developer | Buenos Aires

- Developed the COMEX Foreign Trade web app in React.js, integrated with RESTful Java and .NET microservices; optimized data flows for high-traffic financial transactions.
- Designed a full guarantees system with NestJS, a .NET Core 6 backend and Azure authentication.
- Built MT103/MT199 message trays and role-based CRUDs for analysts and approvers (Azure MSAL).
- Created an in-house Next.js platform that retired licenses of other systems; added OpenTelemetry tracing.
- Contributed Spring Boot endpoints with Swagger docs and JWT/OAuth2 security; configured Jenkins and OpenShift (Kubernetes) pipelines.
